affairs there will come among us a class of people who appreciate the importance of sustaining a newspaper worthy of the name, not through motives of generosity, but self interest. It must be admitted that the Nashes, Coopers, etc., have made the publishing business an unsavory one in this city, and the people are not so much to blame for refusing to give decent support to a newspaper. Yet did they but know it, no other factor performs such an important part in the growth and prosperity of a town as its local press. A clean, well-patronized newspaper gives a favorable impression abroad which at racts strangers and capital, while a dirry, unreadable, starving sheet repels them. We would be pleased to see the Nash outfit supported in a manner which would enable them to get out a respectable looking paper, and not be sending away such a horrible burlesque on our town and its business. Ti e boyco ters and the Anti-Chinese Leagu-, whose organ it professes to be, should take more pride in it and support it better, or some other artist with a handful of shoepegs, a monkey-wrench and a cheese-press, will come in and start an opposition daily, and run it out. In the meantime the EPITAPH will wait devel-

M. A. Jackson, formerly of the Star, has gone to Nogales to start a paper.

The committee on the Miles sword have set the eighth of November for the presentation of the testimonial sword to General Miles.

There are more empty houses in Tucson now than at any time during the last ten years. The California boom has done the work .- Star.

The road from Tucson to the San Pedro is practically abandoned owing to several washouts. The result is the settlers on the San Pedro are going to Benson for their merchandise.

H. K. Hildebrant, indictment by the U. S. grand jury for smrggling, was brought into court upon a bench warrant yesterday, and gave bail for his appearance in January next .- Star.

A Gazette reporter learned that arrangements have been almost perfected to build a railroad from Tempe through to Florence, to connect with the Southern Pacific near Willcox .- Phenix Gazette.

Frank Wagner was out in the Santa Catalinas last week hunting bees, and succeeded in hiving six swarms and securing 150 pounds of honey. He states that he found more than twenty different swarms, but the trees were too large to cut or they could not be got at easily.

The arrest of Geo. Green and Josiah Smith at Gamesville, Texas, yesterday, advertises for bids for the erection of a as reported by our press dispetches, is of much more importance than some may at first imagine. If things are as they seem, the right parties are in limbo, and to U. S. Marshal Meade will be due the credit, as he worked up the entire busi ness single handed, while at El Paso. Marshal Meade left for El Paso this morning .- Star, 25th.

> From a letter from Mr. C S. Masten, President of the Maricopa and Phenix railroad, to Alorz Bailey, it appears that the owners of that road are desirous of extending it to Globe, and the only question now to be considered is the practicablity of a route from Tempe to Globe. Before making reconnoisance for the proposed line, the offi ials are desirous of getting all the information possible about the coun ry through which it is proposed to run, especially as to the most feasible route. The line will doubtless be run through F.orence and Pinal. Mr. Bailey has been requested to meet the officers of the road at Tempe for consultation -Globe Belt.

The six Indians brought down from Dudleyville by the sheriff's posse have all been convicted. One of them who pleaded guilty of grand larceny was sentenced to one year in the penitentiary, and the remaining five, convicted of resisting an officer are to be sentenced to-day. They will likely receive a light | choly. enalty, but sufficiently severe to teach them to respect and fear the civil law. ### let us hope .- Enterprise. ' WHY IS IT?

FORT BOWIE, A. T., Oct. 22, 1887. Editor Star:-You have probably observed in the Tombstone EPITAPH during the past few weeks, several unfavorable notices and comments upon the Tortilita Mining Company and their ed. Benhayon left a letter addressed

doing it, everything in and around Tombstone, which is probably correct, yet how many of the blown up properties have proven productive aside from the Conention, Grand Central, Lucky Cuss and Toughnut, and may be the Emerald. How many others are ahead, yet those attempting to make a "raise" have not been denounced as swindlers in this immaculate journal. Then way this raid against the Tortilita?

ENOUIRER. In reply to the above, copied from the Tucson Star, we would say that the proectors of the Torrilita swindle were worse than highway robbers; they were violating the law by an endeavor to obtain money under false pretenses, while they took no personal risk. As for the charge that we have "puffed" properties which were not producers, it may be true, yet we have never represented them other than prospects when they had no greater depth than the Tortilita "mines." The inference that the mines above named are the only ones worthy of mention in this camp, shows that the writer is not posted. He might have added to the list the names of the Silver Thread, State of Maine, North Point, Boss, West Side, Ground Hog, Vizina, Old Guard, Good Enough, Girard, Bunker Hill, Raitlesnake, Mammoth, Omega, Tribute, Mamie, and fifty others which have ten thousand times more merit than the entire Tortilita group. And yet not one of our mines is represented to be "worth a hundred millious, nor has there ever been an effort made to sell stock to servant girls and farmers by lying reports published broadcast throughout the country. This is what the EPITAPH fought against. And fur-

thermore it has won its fight. OUGAT TO BE ABLLISHED. Col. R. M. Slater, special agent of the interior department, returned yesterday from Gila Bend. Col. Slater, referring to the Papago Indian reservation down there, embraced in township 5, south range 5, west, says it ought to be abolished and thrown open to settlement, as there are but three families residing on the reservation and they are not cultivating the ground. The land is excellent for agriculture and if thrown open to settlement would soon be reclaimed to agriculture. There are twenty-three thousand acres contained in the reservation that is withheld from settlement, which Col. Slater thinks will be returned to the public domain as soon as the facts are made known at the land office in Washington, and he proposes to make a strong recommendation to this end .-

The outbreak at the Territorial penientiary, an account of which is published elsewhere, developed heroism on the part of Superintendent Gares, who ordered the guards to fire, notwithstanding his life was in imminent danger. Our Tombstone boys acquitted themselves nobly. Dick Rule killed two of the Greasers, one of whom, Jose Lupez, was sent up from this county for murder. Johony Behan also played an important | inquire at the rink or at the barber shop. quelling the outbreak. Barney Riggs, a life convict from this county, saved the superintendent's life by killing his assassin. Cochise county always gets to the front.

The Nash outh, claim to publish a great amount of original matter every day. We grant this, for we are not in a position to dispute it. It is so badly printed that we defy any one to tell whether the subject it treats upon be an epic in the original Greek, or the report of a prize fight. Yes, the Nash paper is original, unique, sui generis.

Yuma, October 27.-At 7:30 o'clock this morning seven Mexican prisoners made a break for liberty. Puebla and Vasquez seized Superintendent Gates and endeavored to tie him. They made a threat to kill him if the guards shot The superintendent prevented them from tying him after a struggle and ordered the guards to fire. Guard Hartly shot Puebla through the leg, when Lopez and Bustemen'e ran to the superintendent's office, broke open the desk and got a pistol. Bard and Padilla ran to the superintendent's house and demanded arms of Secretary Rule. Not obtaining any they tried to escape down the hill. Padilla attacked Guard Frealy with a pick; he was rescued by Turnkey Behan. Rule got a pistol and struck Puebla over the head. Lopez shot twice at Rule, who returned the fire, hitting him in the body under the right arm and in the left arm, and shooting Vasquez in the abdomen. Puebla then stabbed the superintendent on top of the right shoulder, when Barney Riggs, a life convict, picked up Lopez's pistol and shot Puebla twice. Guard Reynolds shot Villa twice. Guard Hartly hit three of the five convicts shot.

The break occured at the north gate as the convicts were going outside to work. Puebla, Vasquez, Bustamanta and Lopez are dead. Villa may recover. All are Mexicans. No white convicts were in the ptct.

9.30 p. m -Gates is resting easy; the doctors say he is dangerously hurt, but not necessarily fatal. He was stabbed the back of the neck and back, trying to reach the heart. The knife was twisted around in the wound, making the wound nearly four inches deep.

The Washington correspondent of the Boston Traveler gets the following off on a once prominent man of Arizona: "Ex-Delegate Bear, of Arizona, is a jully good fellow, and one who enjoys a good joke, even at his own expense, and he is willnight while talking with a company of friends at Willaru's; "There is a good deal of fun to be gotten out of names, but I think my wife leads the list. I am her third, husband. First she married a Mr. Root; the second was a Mr. Flower; and the third myself, a Mr. Bean. The Lord only knows what part of the vegetable kingdom she will go to for her fourth husband."
